CASH -------- Getting money on swords and sandals 3 is easy. Go to the magic shop and go on the cheapest fire spell, click inventory. The buy button will still be there. Press it. Your money went up? good. keep doing it and as you get more money do it on more expensive spells for more and more money. DO NOT TRY THIS IN SWORDSHOP it makes your money N/A which sometimes means you cant buy anything. LEVEL UP TIME --------------- Quite quick to do. Works on newest cheat engine. Load up swords and sandals 3 Make or choose a gladiator. Open cheat engine press the "select a process to open" button (hint: it flashes) select your S&S game process (haven't tested this on the flash version BUT if you select the right tab it should work, otherwise crack it like moi) type 8 into CE first scan now level up in S&S (this is why i recommend making a new gladiator) once you have levelled up type 16 into CE Next Scan level up once more i recommend you put both points into sword training but watevs go in CE and look on the left for 24 change the value from 24 to 600 look in S&S look at your level are you level 75? AYYY Have fun! Last edited by Chemicool; 08-17-2015 at 06:06 PM. Super streanth: --------------- Password Result ----------------------- super streanth - gain 70 streanth 2500 agility: ------------- In the begening of swords and sandals 2 were u enter the name type in [[,, then click on randamize buttun 8 times than theres a guy with 2500 agility you can take points and put them in other stuff before you finish with the guy chang his name or an error will occur. Cheat: ----- Submitted by. scottty315 First you must enter your name at the start then put 33 ath end of it Cheat: ------ Submitted by: Spngmnky405 Get a RAM editor (like T-Search or Cheat Engine) and learn how to use it. Load it in firefox and get to the character create screen. Search for 72 (4 byte integer) and then spend a stat point when the search finishes. Then search for 64 (still 4 byte integer) and the final variable that's there is your statpoint. Change that variable to 80,000,000 or something high that is divisible by 8. Making it static is your choice. You now have 10,000,000 statpoints or whatev you typed in divided by 8. Cheat: ------ Submitted by: Alex At "Name" type in: [[, Click then randomize 8 times.You will get a guy with 2500 agility. You can redistribute them now. Don't forget to change the name. Invicinbility: --------------- Look in the trees for a brid like a stork and click it. Save your game, then enter back in it and you will have unlimited life. Hint: ----- Submitted by: bram when are you playing you must follow me do this ok when you writing name type this nameless,, then you have a armor sword shield then choose character click eight time your aglyty is 50 Funny char code: --------------- Put whatever you want to the name but the name has needed tohavethis kinda things in it: Example(name first)hippo. Unlimited money: --------------- Start when you have your person right, make his name whatever you want but dont change the look. Make the stats 3-crisma 3-strenght 5-agility 3-vitality everything else 1. When you face the fearful prisoner run up to him so you can still taunt him and its not to far away and taunt him if he comes up to you, the taunt might have been blocked, walk back and taunt again and finally he will charge at you and you will lose but when you start off you will still have 2500 gold and when you go to fight next person it will be fearful prisoner do same thing lose and get 2500 gold ect. Do all again get more more money! Hint: ----- Submitted by: archie When you play swords and sandals 2 put the name [[,, then press the right arrow on stuble once and you have a man with lods of amor and wepens and a guy with 2500 defense and a second wepon you cant buy from the shop but you have to change the name. Cheat: ------ Submitted by: alex So get the game up put a coma after nameless then rondom till you get this huge guy an then press stubble 3 times and then you will have 2500 defense and 125 strength. You can cange the stats around but remember to take the coma off. have fun! How to get hte 2500 agility points: ---------------------- ----------- To get the 2500 agility points you need to leave the name nameless and then put 2 commas [,,] and mess with the agility points to your liking! it takes awhile but as soon as you are satisfied you need to erase the 2 commas and leave your name (do not change it). After doing all of this your game only corrupts if you try to buy something with NaN gold cost. So dont buy arrow weapons. Alright just do all of this and your game should not corrupt. Extra 2450 gold at the beginning of game: -- At the very beginning of the game when you battle the fearful prisoner, taunt him so he charges you. Do this until his charge hits you. You will lose the fight but you will get 2450 gold from Emperor Antares. Spend as much as possible on armor so you have almost no gold left. Now go to the arena and click on "duel". You will battle the fearful prisoner again and kill him this time. Emperor Antares will give you another 2500 gold. Instead of getting 2500 gold to start the game, you get 4950 gold instead. How to get 2,500 Agility: ------------------------ Submitted by: Dender1 To get 2,500 agility first type after nameless (or if your computer makes you type your own name, type nameless). After that then type 2 comas-, (,,) after nameless. click random a few times, until you see that you have gained 2,500 Agility! Hope you liked this Cheat/ Code/ Cheat Code!
